DETAILED ACTION

This Office Action is in response to an AMENDMENT entered 9/29/2006 for the patent application 09/868,752 filed on 9/4/2001, which claims priority as a 371 of PCT/US99/02717 filed on 2/8/1999, which is a continuation of 09/221,217 filed on 12/22/1998, now US Patent No. 6,023,692.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-21 are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01 or In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385, 388 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including "selecting a plurality of the active pieces of remediation for delivery, the plurality of the active pieces of remediation including at least two concepts, each concept being associated with a different corresponding target on an application interface" or "grouping each of the information [that motivates accomplishment of the training goal] into parent target groups including children target groups, each target group comprising a set of targets, each parent target group and child target group being associated with a concept hierarchy" (supported at e.g., pg. 20, line 25 – pg. 21 line 26 and pg. 23, lines 17-40), where "**A Target is a fixed place where students place SourceItems to complete a task**" (e.g., pg. 20, line 27) as specified in claim 1, 10, 19 and 20.

The Examiner was persuaded by the arguments filed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
